

## **World First**

World First is a foreign exchange broker specialising in helping private individuals send money abroad particularly in relation to relocation. As a result we have extensive experience in assisting with currency transfers in relation to living and working abroad, emigrating, overseas property purchases, transferring savings, and sending money home.

At World first we understand that relocating to a new country can be a daunting experience. It's therefore important that you get off to the right start. The way you move your hard-earned cash can make a huge difference to the amount of money you start your new life with.

World First offers a unique level of service, along with the reassurance that you are getting the best rate, at any given time.

## **The Benefits of Using World First**

- We offer better exchange rates than the high street banks, and regularly save our clients between 0.5% and 3% on the amount they transact.
- Clients receive a bespoke service where they have a private and dedicated manager for all their foreign exchange requirements, and are given free market information when needed.
- We offer foreign exchange products such as forward contracts and hedging strategies. We are the only FSA regulated broker who can offer hedging strategies to our clients, and as a result, we can help you protect you from a falling market, whilst taking advantage of any improvements in the rate.
- We can set up regular payments for you. These are ideal for salary, pension or overseas mortgage payments, school fees, and all other ongoing requirements.
- Fast international and same-day payments.
- We offer a free rate and market watch service.
- We pay all foreign bank receiving costs on your behalf.

Whether you are living in Australia or overseas, World First is at hand to look after your foreign exchange requirements. We have offices around the world, so you can always be sure that we are available at any time and from any destination.
